## INDEPENDENT SCHOOL DISTRICT \#281 ROBBINSDALE AREA SCHOOLS GENERAL FUND GENERAL AND TRANSPORTATION ACCOUNTS ASSUMPTIONS AND CHANGES TO PROGRAMS

Projected revenue for the 2009 - 2010 school year will increase about $\$ 8$ million due in large part to the passage of an operating referendum. The district continued budget reductions for fiscal year 2009 in the amount of $\$ 5.8$ million on top of reductions of $\$ 4.5$ million made for fiscal year 2008. The district was expecting to further reduce the budget by up to $\$ 6$ million for fiscal year 2010, however, the passage of the referendum has allowed the district to restore some of the previous budget reductions and not cut as much in fiscal year 2010.
Expenditures are expected to increase $\$ 4.5$ million due to the budget restorations, salary step increases and benefit increases. Total revenues are expected to be about $\$ 2.4$ million more than expenditures so fund balance will increase from $\$ 1.4$ million to about $\$ 3.8$ million.

## Highlights...

- Board approved student / teacher ratios range from 24 to 29 for the elementary schools, 22.22 for the middle schools and 25.72 for the high schools. These ratios do not include compensatory funds. These are the staffing ratios and staffing resources are assigned to schools based on these ratios, specific grade levels or subjects at specific schools will usually be somewhat smaller or larger based on staffing decisions and enrollment patterns at the specific schools.
- Tuition will be paid to the West Metro Education Program (WMEP) for students continuing to attend the WMEP Fine Arts Interdisciplinary and the InterDistrict Downtown schools. Tuition is also paid to Intermediate District \#287 for special education, vocational and alternative services the district receives from them.

## Revenue...

- The General Education Formula allowance is $\$ 5,124$ which is no increase from the previous year. Marginal cost pupil units are projected at 14,498, a 375 pupil unit decrease.
- Basic Skills / Compensatory Revenue will increase due to additional students eligible for the free and reduced lunch program. The actual percent of students that qualify for free and reduced lunch programs increased to $40.2 \%$ from $37 \%$.
- State special education revenue represents over $11 \%$ of the revenue budget. The district qualifies for aid for the "excess costs" in special education.
- The Marginal cost rate remains constant at $23 \%$. This helps districts with declining enrollments.
- Gift, paid by student and all grant revenue equal expenditures.

## Expenditures...

- Salaries reflect step and lane changes and a zero percent contract increase.
- The VEBA Benefit program is reflected in expenditures at $\$ 604,573$.
- The supply account (object code 430) shows a substantial decrease. This is due to the projected 2010 budget not having any carryover added to it. The revised 2009 budget does include the carryover from fiscal year 2008.
- The district did set up a trust and did bond for certain post employment benefits.

# INDEPENDENT SCHOOL DISTRICT \#281 <br> ROBBINSDALE AREA SCHOOLS GENERAL FUND CAPITAL EXPENDITURE ACCOUNTS ASSUMPTIONS AND CHANGES TO PROGRAMS 

Operating capital revenue replaces two former capital formulas known as equipment revenue and facilities revenue. Operating capital revenue must be reserved and used for equipment and facility needs. A school board may spend other general fund money for operating capital expenses, but general fund money generated by the operating capital revenue component must be reserved and spent only for eligible equipment and facilities needs. The capital expenditure accounts are also funded with health and safety levy proceeds and lease levy proceeds. Expenditures from these revenue sources are controlled by state law and the levy along with expenditures must be approved by the Minnesota Department of Education. Total capital expenditures represent just $5 \%$ of total general fund expenditures. Capital expenditures made from the operating capital revenue represent $3 \%$ of total general fund expenditures. Because operating capital expenditure accounts have their own funding sources the effect on the general operations of the district is minimal.

Operating capital revenue is computed by adding a fixed dollar amount for all districts to a variable amount per pupil unit based on the age of the district's school facilities. The age index is called the maintenance cost index (MCI).

Operating capital revenue provides $\$ 100$ per AMCPU times the district's maintenance cost index. Districts with older buildings receive more revenue because of the maintenance cost index. Districts with newer buildings receive less revenue because of the index.

## Revenue

- The operating capital revenue formula is projected at $\$ 214.35$ per 14,498 pupil units. This will generate total revenue of approximately $\$ 3,119,039$ which will come from state aid and local property tax levies. The aid component totals $\$ 834,826$.
- The Intermediate District \#287 building lease levy is $\$ 772,144$.
- The levy for various athletic leases such as ice rental total $\$ 182,805$.
- The net health and safety levy is $\$ 562,445$.
- The lease purchase levy for the Noble Multi-purpose addition is $\$ 196,811$.
- The warehouse lease levy is $\$ 95,065$.

## Expenditures

- Operating capital expenditures are grouped into four categories: technology, equipment, facilities, teaching and learning curriculum.
- There are significant lease payments relating to prior years' acquisition of equipment and infrastructure.
- Health and safety includes budgets for hazardous substances, physical hazard control, environmental management, asbestos abatement and fire and life safety.
- Larger capital projects include the remodeling of several buildings due to district restructuring brought about with the closing of two schools. These projects will be funded with the proceeds from the previous sale of district buildings.

## INDEPENDENT SCHOOL DISTRICT \#281 <br> ROBBINSDALE AREA SCHOOLS <br> CHILD NUTRITION FUND ASSUMPTIONS AND CHANGES TO PROGRAMS

## Revenue

- Federal aid for breakfast is $\$ .25 \mathrm{x}$ full paid, $\$ 1.10 \mathrm{x}$ reduced-price for regular and $\$ 1.38$ for severe need, $\$ 1.40 \mathrm{x}$ free for regular and $\$ 1.68$ for severe need. Lunch federal aid is $\$ .24 \mathrm{x}$ full paid, $\$ 2.17 \mathrm{x}$ reducedprice and $\$ 2.57 \mathrm{x}$ free.
- State aid for lunch is $\$ .12$. State aid for breakfast is $\$ .55$ for paid and $\$ .30$ for reduced-price.
- During 2008-2009, all reduced-price breakfasts as well as free breakfast were at no charge to eligible students. We anticipate in 2009-2010 reduced-price breakfast meals will remain free.
- Lunch prices will remain the same as 2008-2009, $\$ 2.10$ at elementary; $\$ 2.30$ at the middle schools and $\$ 2.45$ at the high schools.
- Milk and juice prices will remain at $\$ .50$ for milk and $\$ .40$ for juice.
- Breakfast prices will be $\$ 1.20$ for all grade levels.
- The Summer Food Service Program will be available at area eligible sites for enrolled students.

## Expenditures

- Salary changes include step increase and percentage increase per the Child Nutrition contract. All staff will have an annual uniform allowance of $\$ 130$.
- The replacement cycle for child nutrition computers on a four-year cycle will continue. We will begin to upgrade POS at middle schools.
- Food costs include processing and delivery charges for the commodities we are receiving. Rebates for commodities will offset the cost of purchased food. The prime vendor contract includes a fuel surcharge clause that will allow the fixed fee per case to fluctuate based on fuel costs. We will continue to take advantage of manufacturer pricing through cooperative purchasing as part of the Minnesota Food Service Buyers group.
- Staff training in safe food handling practices will continue to meet MN Department of Health requirements and reinforce our HACCP plan. Staff will be required to attend staff development workshops on two district-designated professional development days.
- Kitchens are inspected twice a year by local health departments. There is a fee of $\$ 230$ to $\$ 700$ per site depending on the size of operation. The local health departments require the proof of inspection and the site manager's ServSafe certificate to obtain the local license.
- In order to obtain a state operating license, the Minnesota Department of Health requires proof of local inspection, local license and the site manager's Certified Food Manager's Certificate every three (3) years. Renewal was in February of 2008.
- The menus will be posted each month on the district website and will feature a nutritional analysis. School meals will continue to promote fresh fruits and vegetables, regional promotions and education on food choices. Whole grains will continue to be incorporated into menu choices. Ala carte items and their portion sizes will be reviewed and updated to support the district Wellness Policy, in addition to a focus on increasing fruit and vegetable consumption. Healthy Express options will be increased.
- Free and reduced-price meal applications will be mailed to all district households in addition to being available on-line. Parents/guardians will be able to print the application, complete and mail to the Child Nutrition office. Application cannot be completed on-line.
- Replacement of serving lines at Robbinsdale Middle School to assist in serving an increased number of students efficiently and support safe food handling practices.
- Replacement of dish machine at Neill Elementary to maintain safe food handling practices.
- Plans to install a dish machine at Cooper High school to assist with efficiencies in production, ergonomics and food safety.
- PAMS (Parent Account Management System) will continue. This provides parents with another way to check lunch balances and make payments using a charge card. PAMS has both on-line (computer) access as well as telephone.

## Robbinsdale Area Schools Community Education 2009-10 BUDGET ASSUMPTIONS

## Revenue

- Levy amounts for the following revenue streams will remain stagnant: General Community Education, Youth Development/ Service, Youth Enrichment, Adults with Disabilities, Early Childhood Screening, and School Readiness.
- The ECFE per capita levy amount will remain stagnant, but the number of 0-4 year olds (from Hennepin County Birth Statistics) has increased from 6,615 to 6,720 . Revenue from fees will decline due to reduced class offerings.
- Fees will increase slightly: Adventure Club fees, $2 \%$; Creative Play, 3\%; Kindergarten Choice, 5\%; Adult and Youth Enrichment will see slight increases due to additional program offerings.
- Adult Basic Education revenue is projected to decline, primarily due to a decrease in state reimbursement allocated per student contact hour.
- Adventure Club revenue is sensitive to space availability. Space impacts Adventure Club's Kindergarten program, as well as its before and after school enrollment capacity.
- Kindergarten Choice revenue will decrease because the number of classrooms will fall from eight to five due to school closings.
- The decrease in interest income from the fund balance will continue due to economic conditions and a declining fund balance.

## Expenditures

- A $2 \%$ increase in employee costs is assumed.
- Community Education programs will pay $\$ 5.15$ per square foot (a $3 \%$ increase) for dedicated office and classroom space. Additionally, Community Education will pay $\$ 20,000$ for Human Resource support, and $\$ 42,586$ for salaries and benefits of $20 \%$ of 3 district technology staff.
- Staffing will be reduced:
- Adventure Club will reduce staff due to the closing of two sites (District Facilities Plan).
- Adult Academic Program is reducing staff and staff hours because of a reduced revenue projection. AAP will use $\$ 53,397$ of reserve dollars to sustain program offerings.
- Early Childhood Family Education will reduce staff due to constant revenue and increased staff costs. ECFE spent down its fund balance during 2008-09.
- Adult Enrichment programs (including 55+ and Adults with Disabilities) will reduce staff hours.
- Youth Development/Service and Youth Enrichment will add two . 5 FTE program staff for middle school enrichment. Some other part time staff will see a reduction in hours.
- Kindergarten Choice expenditures are more than revenue due to early staffing decisions and will most likely be revenue neutral when final staffing is in place.
- Each Community Education program area will contribute a greater amount of their resources to offset the reduction in interest income. This contribution appears in the budget as a program expenditure and concomitant expense transfer to Community Education Administration.

## INDEPENDENT SCHOOL DISTRICT \#281 <br> ROBBINSDALE AREA SCHOOLS <br> BUILDING CONSTRUCTION FUND ASSUMPTIONS AND CHANGES TO PROGRAMS

A school district eligible for the alternative facilities program may issue general obligation bonds without voter approval to finance the approved facilities plans. The district may then levy to repay the bonds. This levy qualifies for debt service equalization aid. Alternatively, an eligible district may make an annual levy for the costs incurred under the ten-year facility plan. The 1997 and 1998 Legislatures provided ongoing state aid payments to reduce these levy amounts for districts that qualified at that time.

## Revenue

- State aid includes one sixth of the alternative facilities levy to a maximum of $\$ 900,000$. The alternative facilities levy is $\$ 5.7$ million for fiscal year 2010.
- The district is not anticipating any bond sales in fiscal year 2010.
- A total of $\$ 192.3$ million in alternative facility bonds has been issued to date.
- A total of $\$ 11.3$ million regular building bonds were sold for the construction of Forest Elementary School which opened in the fall of 2005.

## Expenditures

- Bids have been completed on many of the identified projects and are expected to be completed this summer.
- More projects will be identified during the course of the year with some work commencing in late winter or early spring.

# INDEPENDENT SCHOOL DISTRICT \#281 <br> ROBBINSDALE AREA SCHOOLS DEBT SERVICE FUND ASSUMPTIONS AND CHANGES TO PROGRAMS 

Minnesota's local school districts have generally financed the construction of new school buildings through the sale of bonds. The bonds are repaid with revenue raised from the local district's property tax receipts. The total amount of bonds issued by the district determines the yearly debt service that the district must pay; and the amount of bonds issued is, of course, directly related to the district's building needs. The tax rate that the district levies in order to make its debt service payments depends both on the amount of debt and the size of the district's property tax base. The larger the debt, and the smaller the property tax base, the greater the district's tax rate for debt service needs.

The debt service equalization aid program provides state aid to local school districts to help repay the bonds issued to finance construction. The amount of a school district's debt service that the state will pay depends on two factors: the district's total amount of annual debt service and the district's taxable property tax base (net tax capacity) per pupil. The district does not qualify for state aid.

The district has issued a total of $\$ 203.6$ million of bonds to date. Current principal outstanding on the bonds is $\$ 161.1$ million. The district's remaining legal debt margin is $\$ 1.3$ billion.

## Revenues

- The tax levy includes revenue necessary to pay interest and principal payments on all bonds issued to date.
- The tax levy includes energy loan repayments.
- Interest revenue also includes revenue on one refunding bond held in escrow.

## Expenditures

- Bond principal and interest payments on the seven alternative facilities bond issues are included. Also included are interest and principal payments related to the Forest Elementary building bond issue which is not under the alternative facilities program.
- Interest expense includes interest payments on one refunding bond held in escrow.
